Track: Bill Smith
Web Site: Pat Young & Rick Zobelein

Membership
To qualify for membership, attend 2 monthly meetings. At the first meeting, please introduce yourself and obtain a membership application from Membership chairman Rick Zobelein or contact him at rgz48@yahoo.com. At the second meeting, return your completed application, the yearly prorated club dues, together with a the $25 initiation fee and you are officially a member.
Club Correspondence
All correspondence to the Golden Gate Live Steamers should be sent to the secretary, Christopher Smith, 124 San Felipe Ave, South San Francisco, CA 94080 (schristopher700@yahoo.com).

CallBoy
Articles, pictures, photographs, items for sale or any other information that would be of interest to the club should be sent to Pat Young, the interim CallBoy editor (phty95014@yahoo.com).

Deadline for submittal to next month's issue is the 19th!

Calendar of Club Sponsored Events
11/13/16 General Monthly Meeting/Board Meeting/Swap meet/Potluck lunch
11/13/16 Member Appreciation Lunch
12/03-04/16 SVLS Santa Run
12/10-11/16 SVLS Santa Run
12/11/16 Year End General Monthly Meeting/Board Meeting & Elections

Club Meeting Minutes
President Mark Johnson called the General Meeting to order at 10:06 am.

General Announcements:
None.

New & Returning Members, Visitors, Guests:
New family members Hassan and Hassan, Sommayeh, Ali & Ehsan Mokhtan have finally joined!

Steam-related Activities:
Christopher Smith recently visited the Vancouver Island Model Engineers for their Fall Meet. He highly recommends visiting this railroad and more information can be found at their web site at: http://www.vime.ca/home.php
David Luther visited the Pacific Northwestern Live Steamers where he made the comment on how they operate 6 different Public Trains.

**Officers' Report:**

**President Mark Johnson:** “The East Bay Regional Park District has finalized the date and time of their upcoming inspection. The inspection will take place on Friday, October 28, 2016, at 10 am and if anyone would like to help with the inspection I would greatly appreciate the help. I will be on-site at 9:30 am before the inspection.

Reminder: the East Bay Regional Park District (EBRPD) is now smoke free.

Reminder: October 22nd and 23rd is the date for our Fall Meet and Open House. Dust off you engines and bring them and yourselves out for some fun and friendship.

Reminder: this is time of the year for GGLS elections, so please see Ombudsman Bob Cohen if you are interested in running for one of the offices. This is your club, so you get what you put into it and I encourage anyone who is interested to run for office.

Per the Round House/Storage Areas rules and GGLS Board action, the current roundhouse stall locks are being replaced with heaver combination locks. Please see Chairman Michael Smith for your lock & your individual combination.

Beth Dameron has approached the Club and inquired as to how her late father, Jim Dameron could be remembered and as you may recall Jim passed away a year ago. The family has offered to purchase a bench or plaque but in keeping with past GGLS practices, it has been suggested that the new car barn out by the Heinz Loop be named for Jim Dameron. We will vote on renaming the barn during the New Business portion of today's meeting.

Finally, we have asked the Bay Area Engine Modelers (BAEM) to participate with the GGLS again at the upcoming Meet and Open House and they have agreed to participate on Sunday, October 23rd. The BAEM and their models are truly a welcome addition to the GGLS event and the 2016 Spring Meet report on the club's web site at [www.ggls.org](http://www.ggls.org) talks about some of the BAEM member exhibitions.”

**Vice President:** Nothing to report.

**Treasurer:** For a detailed report on this month's club finances, please see John Lisherness.

**Secretary:** Nothing to report.

**Safety Chairman:** Nothing to report

**Ombudsmen:** Bob Cohen was not present.

**Committee Reports:**

**Buildings:** Painting is continuing as planned. Two sides of the Shatlock barn are prepped and are ready for paint. See Rich Lundberg for details or if you can help.

**Grounds:** Andy and Rick have added a new drain to the roundhouse.

**Safety Committee:** Nothing to report.
Signals: A presentation was made during the meeting by Dan Swanson to explain the two different turnout signal formats that currently exist on the outer loop (mainline) turnout signals. It was noted at the start of the presentation that only directly connected mainline switches were involved in this issue. The first signal format was AS IS and provides a vertical or titled LED pattern of a switch's physical alignment regardless of its destinations. The other format is "TRADITIONAL and always displays a vertical LED pattern for a mainline destination and a tilted LED pattern for a diverging route, this signal display is independent of switch alignment. A brief discussion period followed about the formats including the addition of signage to help new or visiting members who may not be familiar with our track layout. A ballot vote was taken to choose one of these display formats. The AS IS format receiving 19 votes and the TRADITIONAL receiving 10 votes. As it turns out only one turnout signal will need changing to match the other AS IS existing signals. Once the signal has been updated it will be announced via multiple sources including a sign in advance of the affected signal. Any questions or comments about the turnout signal display format should be directed to Dan.

Ground Track: Nothing to report.
High Track: Nothing to report.

Rich Croll (railroc66@yahoo.com). Walt reports that in September they had 2,200 riders on the Public Train! Well done Public Train crew.

Bruce has made a new sign to help direct foot traffic to the proper entrance of Redwood Valley and GGLS.

Locomotives:
RGS 22: The RGS 22 continues to haul the Public Train. However recently the Piston Rod unscrewed itself from the crosshead and then the Piston began banging against the cylinder head. Thanks to Dan Swanson who was the engineer at the time for noticing the problem and to Jerry Kimberlin for making the quick repair so that the engine was able to be put back into service. Richard Croll reports that this problem has occurred before.
Johnson Pacific: John Lisherness reports that no new or additional recent work has taken place on the engine since the last engine report.
Heintz Atlantic: John Lisherness reports that no new or additional recent work has taken place on the engine since the last engine report.
Hunter Atlantic: The engine is stored & operational. Mike Gershawitz will be working out a program for club member training & usage.
Gas Diesel Engines: Rick Zobelein reports that the 1971 is running but the 1936 is down and needs the draw bar repaired. It should be back in service soon.

Rolling Stock: Nothing to report.

Callboy/ Website/Builders Group: Pat Young is working off-time on the issue regarding members having Norton Utilities flagging our web site as suspicious. He will also make the article that Jerry presented last month to the GGLS Builders Group and later on our web site.

Membership: Nothing to report.
Roundhouse: Nothing to report.

Public Train: The Public Train Crew needs more volunteers urgently and if you can help, please contact
Old Business:
A discussion that was led by Mark Johnson which talked about the criteria for purchase of the engine that Bob Cohen is selling to the club.

New Business:
Rick would go get mousetraps to hinder/reduce the club's mice problem.

General Meeting Adjourned at 10:55 am.

Board Meeting Minutes

Old Business:
Account signature updates, John Lisherness: Since we are nearing the end of the year, it was decided to defer the Account Signature update, pending the election of any new GGLS Board Members on December 2016. John Lisherness to get this taken care of the first of year 2017.

Round House Updates, Michael Smith: Update on changing over the Round House locks. Michael has begun changing over the Round House locks with the new, heavier combination locks. Round House tenants will be given their new individual lock combinations by Michael Smith.

By Laws update, Bob Cohen: Bob Cohen was absent from the meeting. Bob is to complete his updated written report with needed changes recommendations at the next Board Meeting.

Bob Cohen's Engine Purchase Offer: Bob Cohen made a counter offer to sell the engine for $23,000 which was accepted by the Board subject to the completed engine meeting the following specifications and with the final approval of the purchase to be made by the General Membership.

In order for the RGS 20 locomotive to pass our set criteria, the following conditions must be fulfilled:

The locomotive must meet all the safety requirements in the Safety handbook. A copy of the handbook can be found in the clubhouse.

It must pass a boiler inspection.

It must be able to raise a 'head of steam' within 45 minutes. A 'head of steam' is considered “popping” pressure of the boiler's safety valve.

The locomotive must pull the 'standard amount of cars per train' twice around the track while being loaded with the 'standard amount of passengers per car' where the 'standard amount of passengers’ is 2 adults per car. The 'standard amount of cars per train' is 8-10 riding cars.

While pulling the loaded Public Train twice around, as mentioned above, the locomotive's boiler pressure cannot go below 80 PSI.

New Business:
The GGLS Board has again agreed to the yearly membership dues discount as follows: All members renewing their yearly dues before December 31, 2016, will be eligible to receive a ten dollar ($10.00) discount. Renewal forms can be downloaded from our web site at www.ggls.org

The group unanimously voted to rename the Car Barn, the "Jim Dameron Car Barn.

Bits and Pieces
by Sheldon Yee
Jerry Kimberlin: A Josiah Stone “tonum-type” headlight for his Garratt Locomotive in progress. Shown are the mold for the reflector cone and the aluminum reflector which fits into the cone. Light will be illuminated by a 3-volt LED and run on battery power.

Michael Smith: File Holders made from PVC tubing. A great idea made simple.

Anthony Rhodes: Pair of 3 ½” track gauges, turned on a lathe.

Rich Lundberg: Photo of a large full-size capstan (hoist), made for hauling equipment from a mine or other application.

Miles Archer: Casting materials for making small train parts, such as for small rolling stock.

From Our Members

Birth of a New Live Steam Club!
Sent In By Ken Shattock

Mr. Tom Murray (Murray Pacific Lumber Company) has donated his entire collection of TEN museum-class fully-operable 7 ½” gauge Live Steam Logging Locomotives and 6,000 feet of track to the Mt. Rainier Scenic Railroad at Mineral Washington. Also included are several dozen cars of all types, 28 switches and crossings! The total value of Murray’s donation easily exceeds 1.5 million dollars!
The 20+ year-old track is presently located on Mr. Murray's estate near Tacoma. That track must be removed and renovated before it can be re-installed at Mt. Rainier's facility in Mineral. Mt. Rainier Scenic RR has set aside seven acres of fenced land and full financial support to this effort. Four volunteers (average age 78) have already removed 600 feet of the track on one day last month. That leaves only 5400 feet left! We need a crew of volunteers to donate a couple of days labor to remove the rest.

The new Live Steam railroad at Mineral will be operated by volunteers who will form an independent tax-exempt organization which will be named The Mt. Rainier Live Steamers. The layout of the new railroad is already designed and surveyed. It will initially have two loops of track extending over 4400 feet, with unlimited expansion planned as donations come in. Also, there is a site set aside for a future garden railroad within this location. The live steam railroad will provide free train rides the public similar to the Skykomish's Great Northern and Cascade Railway. Note, most endeavors of this type usually have sufficient people but lack funding and equipment. This is a "once in a lifetime" opportunity to create a fully-equipped and fully-funded new live steam railroad with virtually unlimited room for expansion at no cost except for your labor! Also, all members and guests will be free to operate their own equipment (of both gauges) on these premises. Work times will be arranged depending on volunteer's schedules. The track needs to be removed by the end of the year.

Please contact Bill Zingheim at zing@olympus.net or at (360) 437-2754 if you are interested in helping remove track.

For Sale
September 13, 2016
1 ½" scale 3-bay hopper car

Three bay steel hopper car in very good condition with little running time. Car body and cast iron trucks by Tom Bee. Can be used as a riding car and/or display car for your train.

Asking $900 but will consider any reasonable offers, especially from GGLS club members.

Michael B. Smith
Membership and Roundhouse Renewal Notice

It is time to renew your Golden Gate Live Steamers membership and Roundhouse dues for 2017.

Regular Member (lives within 100 miles of club facilities):
   If renewed on or before December 31, 2016 $40
   If renewed on or after January 1, 2017 $50
   If renewing after March 31, 2017, see note below.
Associate Member (lives beyond 100 miles from club facilities): $30
Family Membership:
   If renewed on or before December 31, 2016 $50
   If renewed on or after January 1, 2017 $60
Roundhouse dues: $200

Please make the checks out to “GGLS” and send them to the following address:

John Lisherness
801 Contra Costa Dr.
El Cerrito, CA 94530

If you want a membership card, please include a Stamped, Self-Addressed Envelope.

If payment is not received by March 31, 2017, your name will be deleted from the club roster and require a $25 initiation fee to be reinstated.

The Golden Gate Live Steamers is a 501(c) 3 non-profit corporation.
